AMERICAN JOURNAL
OF
PHARMACEUTICAL EDUCATION

INDEX TO AUTHORS
INDEX TO SUBJECTS AND TITLES
VOLUME 38

FEBRUARY, MAY
AUGUST, NOVEMBER
1974

(The December issue—the proceedings of the 1974 teachers' seminar on pharmacy and pharmacy administration—is indexed separately.)

INDEX TO AUTHORS

Agersborg, H. P. K., Toxicology versus safety evaluation, 343.

Anon., Memorial to Alvin Felmeister, 305.

Arndt, J. R., An analysis of five years' experience with the telelecture method in Wisconsin, 208.

Ayres, J. W., Student experiments in pharmaceutics. i.v. additives, chemical incompatibilities, kinetics, and the Arrhenius equation, 58.

Bartilucci, A. J., see Bellafiore, I. J., 81.

Beal, Jack, Memorial to Charles L. Williams, 476.

Bellafiore, I. J., A faculty residency in clinical pharmacy, 81.

Blakley, Patty, see Gumtow, Robert, 560.

Bliven, C. W.

Executive Committee (AACP), minutes of the interim meeting (December 1973), 278; minutes of the interim meeting (April 1974), 443;

Memorial to Ernest Little, 125;

Report of degrees conferred by schools and colleges of pharmacy for the academic year 1972-1973, 89.

Born, G. S., see Ice, R. D., 420.

Bradberry, Chris, see Gourley, Dick, 554.

Brady, T. F., see Croswell, R. W., 574.

Braucher, C. L.

Mental health and pharmaceutical education (Council of Sections chairman's section), 463;

Pharmaceutical educators represent a wealth of professional resources (Council of Sections chairman's section), 115;

A progress report (Council of Sections chairman's section), 291.

Braunstein, M. L.

See Golod, W. H., 511;

See Karig, A. W., 161.

Brettschneider, C. K., The problem-oriented medical record as a teaching tool in the basic science pharmacy curriculum, 196.

Bryant, B. G., Acquiring interprofessional skills in a classroom environment, 414.

Buatti, A. T., see Bellafiore, I. J., 81.

Byrd, H. J., Institutional and community clinical externship. unified courses. phase III, 69.

Cammarata, Arthur, The computerized pharmacist: a dispensing program written in FORTRAN, 153.

Carlstedt, Bruce, see Cammarata, Arthur, 153.

Conway, W. D.
See Fung, Ho-Leung, 436;
See Fung, Ho-Leung, 523.

Croswell, R. W., Systems engineering: a program of instruction for pharmacy specialists, 574.

Crouthamel, W. G., see Lim, J. K., 219.

Dickson, W. M., see Rodowskas, C. A., Jr., 38.

Dixon, R. L., Toxicology of environmental agents: a blend of applied and basic research, 348.

Durgin, Sr. J. M., see Bellafiore, I. J., 81.

Emmerson, J. L., Summation (of educational requirements in toxicology), 363.

Finger, K. F., see Stewart, R. B., 23.

Fung, Ho-Leung
A student experiment in pharmaceutical analysis: neutralizing capacity of some OTC antacid products, 436;
A student experiment in pharmaceutics: pH partitioning of a weak acid, 523.

George, R. E., see Ice, R. D., 420.

Gibson, M. R., Programmed instruction: one answer to the challenge to the basic pharmaceutical sciences, I.

Goicoechea, F. J., Computer programs for drug therapy: a tool for teaching pharmacokinetics, 147.

Golberg, Leon, Scope for innovation in teaching toxicology, 354.

Golod, W. H., Development and implementation of a computer-based education program and its application to pharmacy practice, 511.

Gourley, Dick
An innovative coordinated approach in continuing education, 554;
Pharmacy and nursing in a rural health education program, 598.

Granberg, C. B.
Editorials, 112, 289, 460, 613;
Introduction to the new editor: Marvin H. Malone, 509.

Gumtow, Robert
An in vitro pharmacokinetic system for use in the undergraduate laboratory.
I. general considerations, 560;
II. infusion studies, 568.

Haakenson, P. N., A cost benefit analysis of continuing pharmaceutical education, 215.

Hall, V. B., Pharmacy libraries, 603.

Hammel, R. W., see Haakenson, P.N., 215.

Hanan, Z., see Bellafiore, I. J., 81.

Heimiller, Jerry, see Gumtow, Robert, 560.

Henderson, W. M.
Evolving the totally clinical terminal year, 426;
See Karig, A. W., 161.

Higuchi, Takeru, Memorial to Edward E. Smissman, 627.

Ice, R. D., Nuclear pharmacy education, 420.

James, J. D.
See Golod, W. H., 511;
See Karig, A. W., 161.

Jelliffe, R. W., see Goicoechea, F. J., 147.

Jobe, B. D., see Bryant, B. G., 414.

Johnson, H. D., How to give up lecturing for fun and profit, 85.

Karig, A. W.
The family pharmacist and computerized patient records: a training program and practice model, 161;
See Golod, W. H., 511;
See Henderson, W. M., 426.

Katcher, B. S., see Stimmel, G. L., 179.

LaFrance, Walker, Jackley & Saville, Report of the independent auditor, 100.

Laskar, P. A., see Ayres, J. W., 58.

Leavitt, D. E., see Waldman, A. M., 27.

Lesshafft, C. T., Jr., Objectives for the practice experience course. I. prescription practice, 395.

Levin, R. H., see Stimmel, G. L., 179.

Lim, J. K., A simplified method for following the drug-concentration time course in rats: an undergraduate biopharmaceutics experiment, 219.

Lowenthal, Werner, see Smith, Harold, 550.

Lui, Amy, see Gumtow, Robert, 568.

Mauger, J. W., see Lim, J. K., 219.

Zografi, George, Pharmaceutics: the study of drug-delivery systems, 9.

INDEX TO SUBJECTS AND TITLES

Acquiring interprofessional communication skills in a classroom environment, B. G. Bryant and B. D. Jobe, 414.

Acute drug intoxications: their value in the education of pharmacy students, R. B. Stewart, Michael McKenzie, and Michael Rutledge, 75.

Adverse drug reactions: an educational tool in patient-oriented pharmacy programs, R. B. Stewart and K. F. Finger, 23.

American Association of Colleges of Pharmacy
- Executive Committee, minutes of the interim meeting (December 1973), C. W. Bliven, 278; minutes of the interim meeting (April 1974), C. W. Bliven, 443;
- Report of degrees conferred by for the academic year 1972-1973, C. W. Bliven, 89.

Analysis
- (An) of five years' experience with the telelecture method in Wisconsin, J. R. Arndt and M. H. Weinswig, 208;
- (Pharmaceutical)
  - Determination of creatinine in urine, a student experiment in, J. W. Munson, 545;
  - Neutralizing capacity of some OTC antacid products, a student experiment in, Ho-Leung Fung and W. D. Conway, 436;
- Of student response confidence during an examination, R. G. Mrtek and M. B. Mrtek, 169.

Announcements, 117, 294, 465, 615.

Arrhenius equation, i.v. additives, chemical incompatibilities, kinetics, and, student experiments in pharmaceutics:, J. W. Ayres and P. A. Laskar, 58.

Auditor (independent), report of the, LaFrance, Walker, Jackley & Saville, 100.

Audio-tutorial evaluation form, the development of an, K. M. Mills, 595.

Biomedical engineering, the future of pharmacy and its relation to, V. F. Smolen, 411.

Biopharmaceutics, a simplified method for following the drug concentration-time course in rats: an undergraduate experiment, J. K. Lim, W. G. Crouthamel, and J. W. Mauger, 219.

Births, 121, 301, 469, 616.

Book reviews, 134, 312, 486, 638.

Books, new, 144, 324, 505, 654.

Books reviewed
- About epilepsy, rev. ed., 487;
- Agricultural pharmacy, 2nd ed., 316;
- AMA drug evaluations, 2nd ed., 314;
- The American connection: profiteering and politicking in the "ethical" drug industry, 500;
- American folk medicine, 318;
- Analytical profiles of drug substances, Vol. II, 322;
- Anticonvulsant drugs, Vol. 2, 487;

Antimicrobial agents in medicine, 650;
Assay of vitamins in pharmaceutical preparations, 489;
Benzodiazepines in clinical practice, 652;
Best & Taylor's physiological basis of medical practice, 9th ed., 140;
Biochemistry: a comprehensive review, 642;
British pharmaceutical codex 1973, 136;
Central nervous system pharmacology: a self-instruction text, 640;
The chemical formulary, Vol. XVII, 499;
A chemist's guide to regulatory drug analysis, 641;
Comparative pharmacology, Vols. 1 and 2, 498;
Contact dermatitis, 2nd ed., 315;
Current concepts in the pharmaceutical sciences: dosage form design and bioavailability, 140;
Drinks, drugs, and do-gooders, 317;
Drug abuse in industry, 648;
Drug design, Vol. IV, 313;
Drug dosage in laboratory animals: a handbook, rev. ed., 493;
Drug interactions, 2nd ed., 135;
Drug resistance and selectivity, 319;
Drugs and the cell cycle, 321;
Drugs of choice, 1974-1975, 502;
Emulsions and emulsion technology, part 1, 639;
Evaluations of drug interactions—1973, 138;
Everything you wanted to know about drug abuse...but were afraid to ask, 491;

Theory of pharmaceutical systems, Vol. 1: general principles, 138;
The vinca alkaloids: botany, chemistry, and pharmacology, 492;

Wednesday night at the lab: antibiotics, bioengineering, contraceptives, drugs and ethics, 493;

Calculations, usability of multiple-choice questions in evaluating student performance in pharmaceutical, Harold Smith and Werner Lowenthal, 550.

Changes in staff titles, 122, 301, 469, 617.

Changing concepts in pharmacognosy, H. W. Youngken, Jr., 581.

Chemistry (medicinal), on combining pharmacognosy and, J. L. McLaughlin, W. A. Remers, and J. E. Robbers, 16.

Clinical area, teaching communications in the, D. L. Smith, 186.

Clinical terminal year, evolving the totally, W. M. Henderson and A. W. Karig, 426.

Communication skills, acquiring interprofessional in a classroom environment, B. G. Bryant and B. D. Jobe, 414.

Computer-based education program, development and implementation of a and its application to pharmacy practice, W. H. Golod, A. W. Karig, J. D. James, and M. L. Braunstein, 511.

Computer programs for drug therapy: a tool for teaching pharmacokinetics, F. J. Goicoechea and R. W. Jelliffe, 147.

Computerized patient records, the family pharmacist and: a training program and practice model, A. W. Karig, J. D. James, M. L. Braunstein, and W. M. Henderson, 161.

Consumer health education program (A) involving pharmacists, A. N. Voldeng, 224.

Contemporary toxicology course (A) with an old-fashioned touch, R. G. Rahwan, 516.

Cost benefit analysis (A) of continuing pharmaceutical education, P. N. Haakenson and R. W. Hammel, 215.

Council of Sections chairman's section

Mental health and pharmaceutical education, C. L. Braucher, 463;

Pharmaceutical educators represent a wealth of professional resources, C. L. Braucher, 115;

A progress report, C. L. Braucher, 291.

Curriculum (basic science pharmacy), the problem-oriented medical record as a teaching tool in the, C. K. Brettschneider, 196.

Determination of creatinine in urine, a student experiment in pharmaceutical analysis, J. W. Munson, 545.

Development (The) of an audio-tutorial evaluation form, K. M. Mills, 595.

Development and implementation of a computer-based education program and its application to pharmacy practice, W. H. Golod, A. W. Karig, J. D. James, and M. L. Braunstein, 511.

Drug concentration-time course in rats, a simplified method for following the: an undergraduate biopharmaceutics experiment, J. K. Lim, W. G. Crouthamel, and J. W. Mauger, 219.

Drug-delivery systems, pharmaceutics: the study of, George Zografi and J. R. Robinson, 9.

Drug dosage, individual adjustment of, a new function-oriented course:, R. H. Reuning and J. A. Visconti, 365.

Editorials, C. B. Granberg, 112, 289, 460, 613.

Education

(Continuing)

A cost benefit analysis of pharmaceutical, P. N. Haakenson and R. W. Hammel, 215;

An innovative coordinated approach in, D. R. Gourley and Chris Bradberry, 554;

Mandatory pharmacy (president's section), L. C. Weaver, 109;

(Health), pharmacy and nursing in a rural program, Dick Gourley, 598;

Nuclear pharmacy, R. D. Ice, S. M. Shaw, G. S. Born, and R. E. George, 420;

(Pharmaceutical)

An information-flow model of perception applied to, Dolores Silva and M. M. Tuckerman, 588;

Mental health and (Council of Sections chairman's section), C. L. Braucher, 463;

Toxicology and relevant, R. S. McCutcheon, 334.

Educators (Pharmaceutical) represent a wealth of professional resources (Council of Sections chairman's section), C. L. Braucher, 115.

Effect (the) of drugs on the enzymatic oxidation of xanthine by xanthine oxidase, a student experiment in biopharmaceutics:, L. A. Sternson and Anthony Palmieri III, 541.

Emerging role (The) and training program of clinical pharmacy in psychiatry, G. L. Stimmel, B. S. Katcher, and R. H. Levin, 179.

England, pharmacy education in, D. A. Norton and M. C. Smith, 51.

Enrollment
(Graduate) data, October 1973 and graduate study in member colleges, 1974-1975, C. A. Rodowskas, Jr., 250;
In schools and colleges of pharmacy first semester, term, or quarter, 1973-1974, C. A. Rodowskas, Jr., 229.

Evaluation of a clinical pharmacy program at the University of Illinois, D. A. Nona and N. G. Popovich, 402.

Evolving the totally clinical terminal year, W. M. Henderson and A. W. Karig, 426.

Executive Committee, minutes of the interim meeting (December 1973), C. W. Bliven, 278; minutes of the interim meeting (April 1974), C. W. Bliven, 443.

Experiments
(Student)
In biopharmaceutics: the effect of drugs on the enzymatic oxidation of xanthine by xanthine oxidase, L. A. Sternson and Anthony Palmieri III, 541;
In pharmaceutical analysis:
Determination of creatinine in urine, J. W. Munson, 545;
Neutralizing capacity of some OTC antacids, Ho-Leung Fung and W. D. Conway, 436;
In pharmaceutics:
I.V. additives, chemical incompatibilities, kinetics, and the Arrhenius equation, J. W. Ayres and P. A. Laskar, 58;
pH partitioning of a weak acid, Ho-Leung Fung and W. D. Conway, 523;
(An undergraduate biopharmaceutics), a simplified method for following the drug concentration-time course in rats:, J. K. Lim, W. G. Crouthamel, and J. W. Mauger, 219.

Externship (Institutional and community clinical). unified courses. phase III, H. J. Byrd, 69.

Faculty happiness (president's section). L. C. Weaver. 457.

Faculty residency (A) in clinical pharmacy, I. J. Bellafiore, A. T. Buatti, Z. Hanan, Sr. J. M. Durgin, and A. J. Bartilucci, 81.

Faculty salaries in colleges of pharmacy, C. A. Rodowskas, Jr., and W. M. Dickson, 38.

Felmeister, Alvin, Memorial to, anon., 305.

FORTRAN, the computerized pharmacist: a dispensing program written in, Arthur Cammarata, Bruce Carlstedt, and Charles Peterson, 153.

Function-oriented course (A new): individual adjustment of drug dosage, R. H. Reuning and J. A. Visconti, 365.

Future (The) of pharmacy and its relation to biomedical engineering, V. F. Smolen, 411.

General news, 126, 306, 478, 629.

Geographical distribution (A study of the) of undergraduate pharmacy students for the academic year 1973-1974, C. A. Rodowskas, Jr., 269.

Graduate enrollment data, October 1973 and graduate study in member colleges, 1974-1975, C. A. Rodowskas, Jr., 250.

Graduate training in toxicology, G. L. Plaa, 330.

How to give up lecturing for fun and profit, H. D. Johnson, 85.

Illinois, University of, an evaluation of a clinical pharmacy program at the, D. A. Nona and N. G. Popovich, 402.

Impact (The) of current laws on education in toxicology, B. P. McNamara, 339.

Incompatibilities (chemical), i.v. additives, kinetics, and the Arrhenius equation, student experiments in pharmaceutics:, J. W. Ayres and P. A. Laskar, 58.

Index to volume 38, 659.

Information-flow model (An) of perception applied to pharmaceutical education, Dolores Silva and M. M. Tuckerman, 588.

Innovative coordinated approach (An) in continuing education, D. R. Gourley and Chris Bradberry, 554.

Institutional and community clinical externship. unified courses. phase III, H. J. Byrd, 69.

Interim meeting of the AACP Executive Committee
April 1974, minutes of the, C. W. Bliven, 443;
December 1973, minutes of the, C. W. Bliven, 278.

Introduction (educational requirements in toxicology), T. S. Miya, 328.

In vitro pharmacokinetic system for use in the undergraduate pharmaceutics laboratory.

I. general considerations, Robert Gumtow, Donald Perrier, Jerry Heimiller, Patty Blakley, and David Nicoletti; 560;

II. infusion studies, Robert Gumtow, Susanna Wai, and Amy Liu, 568.

I.V. additives, chemical incompatibilities, kinetics, and the Arrhenius equation, student experiments in pharmaceutics:, J. W. Ayres and P. A. Laskar, 58.

Introduction to the new editor: Marvin H. Malone, C. B. Granberg, 509.

Kinetics, i.v. additives, chemical incompatibilities, and the Arrhenius equation, student experiments in pharmaceutics:, J. W. Ayres and P. A. Laskar, 58.

Little, Ernest, Memorial to, C. W. Bliven, 125.

Malone, Marvin H., introduction to the new editor, C. B. Granberg, 509.

Mandatory continuing pharmacy education (president's section), L. C. Weaver, 109.

Marriages, 121, 301, 469, 617.

Memorial to

Alvin Felmeister, anon., 305;

Ernest Little, C. W. Bliven, 125;

Edward E. Smissman, Takeru Higuchi, 627;

Charles L. Williams, Jack Beal, 477.

Memorials, 125, 305, 476, 627.

Mental health and pharmaceutical education (Council of Sections chairman's section), C. L. Braucher, 463.

Minutes of the AACP Executive Committee, interim meeting (December 1973), C. W. Bliven, 278; interim meeting (April 1974), C. W. Bliven, 443.

Neutralizing capacity of some OTC antacid products, a student experiment in pharmaceutical analysis:, Ho-Leung Fung and W. D. Conway, 436.

New books, 144, 324, 505, 654.

New staff members, 122, 304, 472, 619.

News (general), 126, 306, 478, 629.

Nuclear pharmacy education, R. D. Ice, S. M. Shaw, G. S. Born, and R. E. George, 420.

Nursing in a rural health education program, pharmacy and, Dick Gourley, 598.

Objectives for the practice experience course. I. prescription practice, C. T. Lesshafft, Jr., 395.

On combining medicinal chemistry and pharmacognosy, J. L. McLaughlin, W. A. Remers, and J. E. Robbers, 16.

Patient-oriented pharmacy programs, adverse drug reactions: an educational tool in, R. B. Stewart and K. F. Finger, 23.

Pharmaceutics

A student experiment in:

I.V. additives, chemical incompatibilities, kinetics, and the Arrhenius equation, J. W. Ayres and P. A. Laskar, 58;

The study of drug-delivery systems, George Zografi and J. R. Robinson, 9;

Undergraduate laboratory. An in vitro pharmacokinetic system for use in the.

I. general considerations, Robert Gumtow, Donald Perrier, Jerry Heimiller, Patty Blakley, and David Nicoletti, 560;

II. infusion studies, Robert Gumtow, Susanna Wai, and Amy Lui, 568.

Pharmacist(s)

(Clinical), a training program for in the operation of a regional poison control center, J. C. Veltri and A. R. Temple, 531;

The computerized: a dispensing program written in FORTRAN, Arthur Cammarata, Bruce Carlstedt, and Charles Peterson, 153;

A consumer health education program involving, A. N. Voldeng, 224;

(The family) and computerized patient records: a training program and practice model, A. W. Karig, J. D. James, M. L. Braunstein, and W. M. Henderson, 161.

Pharmacokinetics, computer programs for drug therapy: a tool for teaching, F. J. Goicoechea and R. W. Jelliffe, 147.

Pharmacy

(Clinical)

The emerging role and training program in psychiatry, G. L. Stimmel, B. S. Katcher, and R. H. Levin, 179;

An evaluation of a program at the University of Illinois, D. A. Nona and N. G. Popovich, 402;

Faculty residency (A) in, I. J. Bellafiore, A. T. Buatti, Z. Hanan, Sr. J. M. Durgin, and A. J. Bartilucci, 81;

(Colleges of), faculty salaries in, C. A. Rodowskas, Jr., and W. M. Dickson, 38;

Education in England, D. A. Norton and M. C. Smith, 51;

Future (The) of and its relation to biomedical engineering, V. F. Smolen, 411;

Libraries, V. B. Hall and H. Q. Nelson, 603;

And nursing in a rural health education program, Dick Gourley, 598;

Program, predicting an applicant's success in a three-year professional, A. M. Waldman and D. E. Leavitt, 27;

Programs, adverse drug reactions: an educational tool in patient-oriented, R. B. Stewart and K. F. Finger, 23;

Specialists, systems engineering: a program of instruction for, R. W. Croswell, T. F. Brady, and R. B. Smith, 574.

Pharmacognosy

Changing concepts in, H. W. Youngken, Jr., 581;

On combining medicinal chemistry and, J. L. McLaughlin, W. A. Remers, and J. E. Robbers, 16.

pH partitioning of a weak acid, a student experiment in pharmaceutics, Ho-Leung Fung and W. D. Conway, 523.

Poison control center, a training program for clinical pharmacists in the operation of a regional, J. C. Veltri and A. R. Temple, 531.

Predicting an applicant's success in a three-year professional pharmacy program, A. M. Waldman and D. E. Leavitt, 27.

Prescription practice, objectives for the practice experience course. I., C. T. Lesshafft, Jr., 395.

President's section

Faculty happiness, L. C. Weaver, 457;

Mandatory continuing pharmacy education, L. C. Weaver, 109;

Telling our story, L. C. Weaver, 287;

Time (A) of change, A. I. White, 611.

Problem-oriented medical record (The) as a teaching tool in the basic science pharmacy curriculum, C. K. Brettschneider, 196.

Programmed instruction: one answer to the challenge to the basic pharmaceutical sciences, M. R. Gibson, 1.

Progress report (A) (Council of Sections chairman's section), C. L. Braucher, 291.

Psychiatry, the emerging role and training program of clinical pharmacy in, G. L. Stimmel, B. S. Katcher, and R. H. Levin, 179.

Report of (on)

Degrees conferred by schools and colleges of pharmacy for the academic year 1972-1973, C. W. Bliven, 87;

Enrollment in schools and colleges of pharmacy first semester, term, or quarter, 1973-1974, C. A. Rodowskas, Jr., 229;

The independent auditor, LaFrance, Walker, Jackley & Saville, 100.

Sciences, programmed instruction: one answer to the basic pharmaceutical, M. R. Gibson, 1.

Scope for innovation in teaching toxicology, Leon Golberg, 354.

Simplified method (A) for following the drug concentration-time course in rats: an undergraduate biopharmaceutics experiment, J. K. Lim, W. G. Crouthamel, and J. W. Mauger, 219.

Smissman, Edward E., Memorial to, Takeru Higuchi, 627.

Staff changes, 122, 301, 469, 617.

Student(s)

Evaluation of educational programs, W. H. Pitlick and E. M. Plein, 381;

Performance in pharmaceutical calculations, usability of multiple-choice questions in evaluating, Harold Smith and Werner Lowenthal, 550;

(Pharmacy)

Acute drug intoxications: their value in the education of, R. B. Stewart, Michael McKenzie, and Michael Rutledge, 75;

A study of the geographical distribution of undergraduate for the academic year 1973-1974, C. A. Rodowskas, Jr., 269;

Systems engineering: a program of instruction for, R. W. Croswell, T. F. Brady, and R. B. Smith, 574;

Response confidence (Analysis of) during an examination, R. G. Mrtek and M. B. Mrtek, 169.

Study (A) of the geographical distribution of undergraduate pharmacy students for the academic year 1973-1974, C. A. Rodowskas, Jr., 269.

Summation (educational requirements in toxicology), J. L. Emmerson, 363.

Systems engineering: a program of instruction for pharmacy students, R. W. Croswell, T. F. Brady, and R. B. Smith, 574.

Teaching communications in the clinical area, D. L. Smith, 186.

Telelecture method in Wisconsin, an analysis of five years' experience with the, J. R. Arndt and M. H. Weinswig, 208.

Telling our story (president's section), L. C. Weaver, 287.

Time (A) of change (president's section), A. I. White, 611.

Toxicology
A contemporary course with an old-fashioned touch, R. G. Rahwan, 516;
Of environmental agents: a blend of applied and basic research, R. L. Dixon, 348;
Graduate training in, G. L. Plaa, 330;
The impact of current laws on education in, B. P. McNamara, 339;
And relevant education, R. S. McCutcheon, 334;
Scope for innovation in teaching, Leon Golberg, 354;
Versus safety evaluation, H. P. K. Agersborg 343.

Training program (A) for clinical pharmacists in the operation of a regional poison control center, J. C. Veltri and A. R. Temple, 531.

Usability of multiple-choice questions in evaluating student performance in pharmaceutical calculations, Harold Smith and Werner Lowenthal. 550.

Williams, Charles, L., Memorial to, Jack Beal, 476.

Wisconsin, an analysis of five years' experience with the telelecture method in, J. R. Arndt and M. H. Weinswig, 208.

INDEX TO AUTHORS

Chalmers, R., Pharmacy education: integration of didactic and practical experience components, 741.

Fisher, A. B., Jr., Greetings from the American Foundation for Pharmaceutical Education, 673.

Goyan, J. E., Pharmacy practice—structure and function, 687.

Jinks, Martin, The contribution of clinical pharmacy education to professional practice, 712.

Ladinsky, Jack, Professionalism and pharmacy education in the contemporary practice, 679.

McEvilla, J. D., Reactor paper: pharmacy administration, 722.

Myers, M. J., Objectives of the 1974 seminar, 677.

Osol, Arthur, Greetings from the Philadelphia College of Pharmacy and Science, 671.

Pellegrino, E. D., Some issues in education for the health professions: the impact of a changing social and political climate, 726.

Sauter, R. C., Integration of basic sciences: a rationale, 735.

Sugita, E. T., see Myers, Maven, 677.

Tice, L. F., Greetings from the host, 669.

Tozer, T. N., Reactor paper: pharmaceutics, 719.

Weaver, L. C., Greetings from the American Association of Colleges of Pharmacy, 675.

Wertheimer, A. I., The contribution of pharmacy administration to professional practice, 701.

Zografi, George, The contribution of pharmaceutics to professional practice, 697.

INDEX TO SUBJECTS AND TITLES

Contribution (The)
- Of clinical pharmacy education to professional practice, Martin Jinks, 712;
- Of pharmaceutics to professional practice, George Zografi, 697;
- Of pharmacy administration to professional practice, A. I. Wertheimer, 705.

Discussion group
- Pharmaceutics, report of, 754;
- Pharmaceutics—clinical pharmacy, report of, 755.

Education
- (Clinical pharmacy), the contribution of to professional practice, Martin Jinks, 712;
- (Pharmacy)
  - Integration of didactic and practical experience components, R. K. Chalmers, 741;
  - Professionalism and in the contemporary period, Jack Ladinsky, 679;
  - Some issues in for the health professions: the impact of a changing social and political climate, E. D. Pellegrino, 726.

Greetings from
- The American Association of Colleges of Pharmacy, L. C. Weaver, 675;
- The American Foundation for Pharmaceutical Education, A. B. Fisher, Jr., 673;
- The host, L. F. Tice, 669;
- The Philadelphia College of Pharmacy and Science, Arthur Osol, 671.

Health professions, some issues in education for the: the impact of a changing social and political climate, E. D. Pellegrino, 726.

Index of the proceedings of the teachers' seminar on pharmacy and pharmacy administration 1974, 761.

Integration of basic sciences: a rationale, R. C. Sauter, 735.

Objectives of the 1974 seminar, M. J. Myers and E. T. Sugita, 677.

Pharmacy
(Clinical)
The contribution of education to professional practice, Martin Jinks, 712;
Workshop, report of, 753;
Education: integration of didactic and practical experience components, R. K. Chalmers, 741;
Practice—structure and function, J. E. Goyan, 687.
Pharmaceutics
The contribution of to professional practice, George Zografi, 697;
Discussion group, report of, 754;
Reactor paper:, T. N. Tozer, 719.
Pharmacy administration
The contribution of to professional practice, A. I. Wertheimer, 705;
Reactor paper:, J. D. McEvilla, 722;
Workshop, report of, 752.
Practice (professional)
The contribution of clinical pharmacy education to, Martin Jinks, 712;
The contribution of pharmaceutics to, George Zografi, 697;
The contribution of pharmacy administration to, A. I. Wertheimer, 705.
Professionalism and pharmacy education in the contemporary period, Jack Ladinsky, 679.
Reactor paper
Pharmaceutics, T. N. Tozer, 719;
Pharmacy administration, J. D. McEvilla, 722.
Registrants at the teachers' seminar on pharmacy and pharmacy administration 1974, 756.
Sciences (basic), integration of: a rationale, R. C. Sauter, 735.
Social and political climate (the impact of a changing), some issues in education for the health professions, E. D. Pellegrino, 726.
Some issues in education for the health professions: the impact of a changing social and political climate, E. D. Pellegrino, 726.
Workshops, reports of, 749.
